### How to Play Pick 4

Decide how many plays you want and use one panel for each play. You can choose one, two, three, four, or all five plays (A thru E) on each Pick 4 play slip. Each play costs \$1. Only use blue or black ink to mark your play slip. Mark the appropriate boxes with the following information:

1. For each play, choose 4 numbers from 0 – 9 by marking a number in each column.
2. If you want the terminal to randomly select your numbers, ask the clerk for a Quick Pick (QP), or mark the QP box on the play slip.
3. Select your **PLAY TYPE**, either **STRAIGHT (STR)**, **BOX**, or **STRAIGHT/BOX (STR/BOX)**. (See chart inside.)
4. Select the **DRAW TYPE** you wish to play by marking the **DAY**, **EVE**, or **DAY & EVE** box.
5. To play for a draw day other than the present day (NOT TODAY), mark the appropriate box under **ADVANCE PLAY**. If no day is selected, the play will default to the next draw.
6. If you want to play the same numbers for up to 14 consecutive drawings for either **DAY** or **EVE** mark the appropriate number of drawings in the **MULTI-DRAW** section. (NOTE: If **MULTI-DRAW** and **DAY & EVE** are selected you will receive tickets up to 28 draws.) **MULTI-DRAW** selection will be consecutive from the first draw selected.
7. If you make an error in your selections, mark the **"VOID"** box for that play.
8. Before submitting your play slip, make sure the numbers you have chosen are the ones you want. Pick 4 tickets cannot be canceled after they are processed. Responsibility for the numbers selected rests with the player, not the retailer or the Lottery. **ALL SALES ARE FINAL**.
9. Give your completed Pick 4 play slip to your Lottery retailer with money to buy your ticket. Drawings are on Sunday through Saturday at approximately 1:00 p.m. and 9:30 p.m. MT.
