

How To Play Pick 4

Each play slip has five (5) boards lettered A–E. You may play up to five different sets of numbers on one play slip at \$1 for each play.

For each play, choose four (4) numbers from 0 to 9 by marking a number in each column. If you want the terminal to randomly select your numbers, mark the box next to “QP” for Quick Pick.

Select your play type: Straight (Exact Order), Box (Any Order) or Straight/Box (Exact or Any Order). Next, select your Draw Type and whether you want to add Advance Play and/or Multi-Draw options. *See back page for details.*

Use only blue or black ink to mark your play slip.
