LOADING COMBINED PACKS

Multiple packs of tickets can be combined to reduce out-of-stock situations, as long as they are from the same game.

1. Press **LOAD COMBINED PACKS** from the Maintenance Menu.
 2. Enter the bin number to be loaded. Press **ENTER**.
 3. Scan the first and last ticket in the first pack. (If loading a full and partial pack, make sure that you scan the partial pack first.) Press **ENTER**.
 4. Scan any ticket in the second pack. (Note: this must be a full pack.) Press **ENTER**.
 5. Verify that the correct ticket price, quantity and length were read. Press **ENTER**.
 6. Slide tickets over roller and through ticket guides. Once sensed in the slot, they will load automatically.
 7. When the "Packs successfully loaded" message appears, press **OK** to return to the Main Menu.
- Full and partial/combined packs can also be loaded manually, bypassing the use of the barcode reader. This requires entering all barcode information manually. You cannot load 2 partial packs. If you need perforated tape to combine packs, please contact your Field Service Representative.*

UNLOADING TICKETS

1. Press **UNLOAD INSTANT TICKETS** from the Main Menu.
2. Enter the bin number to be unloaded. Press **ENTER**.
3. The rollers will reverse and the tickets may be pulled from the ticket guide.
4. When you have removed the pack, press **OK** to return to the Main Menu.

FAST PLAY!™ TICKET FUNCTIONS

LOADING A FAST PLAY! GAME

1. From the Maintenance Menu, press **LOAD FAST PLAY GAME**.
2. Confirm that the correct bin is selected and press **ENTER**.
3. Use the barcode scanner to scan the barcode on the back of the Fast Play! 4 x 4 insert card.
4. After scanning the barcode, a confirmation screen will show the game name and price point. If the information is correct, press **OK**.
5. Place the Fast Play! insert card in the selected bin's viewable button window.

UNLOADING A FAST PLAY! GAME

1. From the Maintenance Menu, press **UNLOAD FAST PLAY GAME**.
2. Press the selected bin, press **ENTER**.
3. A screen will confirm the game has been unloaded from the selected bin. Press **OK**.
4. Remove insert card.

TROUBLESHOOTING

Before proceeding with the following troubleshooting tips, from the Main Menu, press **SYSTEM REPORTS**. Press **STATUS (DEVICE CONDITIONS) REPORT**. This report can help give insight as to what the problem may be. A simple reboot fixes most problems.

TERMINAL REBOOT

In case of an error in which the SSLT needs to be rebooted:

1. Press **DIAGNOSTICS** from the Main Menu.
 2. Press **RESTART MACHINE**.
 3. A confirmation screen will pop up. Press **OK** to reboot the SSLT.
- This effectively refreshes all components of the SSLT, including connectivity.*

BIN DISPENSE ERRORS & JAMS

If a bin dispense error or jam occurs, a message will display indicating that there has been a jam. The price display on the front of the machine will read "----" and the bin will be disabled. To remedy this:

1. Run an Inventory Report from the **ACCOUNTING REPORTS MENU**.
 2. Unload tickets from the bin in which the error occurred. (See **UNLOADING TICKETS**.)
 3. Reload the tickets as a partial/combined pack with the number that was produced by the Inventory Report. (See **LOADING PARTIAL PACKS**)
- If a jam occurs, unload tickets from the affected bin.*

BILL ACCEPTOR DISABLED

If the bill acceptor is disabled, check for the following problems:

1. First, ensure that the stacker is not full or obviously jammed.
2. If there is not an obvious problem in the stacker, remove the stacker by pressing down on the white plastic lever and lift out. Then, press the steel release rod on the sensor housing and lift.
3. Remove any obstruction and replace the sensor housing and the stacker.

TERMINAL CREDIT

- The terminal will accept \$1, \$5, \$10 and \$20 bills with a maximum credit amount of \$100.
- The bill acceptor will turn off and will not accept bills until the credit drops below \$100.
- The terminal does NOT give change.

CHECK A TICKET

SCAN A TICKET TO SEE IF IT IS A WINNER:

1. Place barcode located on the ticket under the barcode reader. Terminal will read Drawing and Scratcher tickets with a PDF417 barcode.
2. The screen will display the result of the inquiry.
