Best Practices for December

A MESSAGE FROM THE CEO

Dear Retail Partners,

As we enter this holiday season, we recognize it's a time of both celebration and significant change at the New Mexico Lottery. We're excited to discuss our new partnership with Scientific Games, which will bring advanced lottery equipment and a robust reporting platform to your stores — designed to make your operations more efficient and your experience smoother.

We understand that any transition can be challenging, and we're committed to minimizing disruptions to your business. Our teams are working closely with Scientific Games to ensure you receive the support and training you need. If you have questions or concerns, please don't hesitate to reach out to your Field Service Representative.

We also want to express our sincere gratitude to Intralot for its years of dedicated service to your stores. As Scientific Games takes over in-store operations, you may see both familiar and new faces — rest assured, we're here to support you every step of the way. We'll share more details soon about what to expect.

Thank you for your continued partnership and for all you do to support the Lottery, especially during this busy season. Your efforts help make college dreams a reality for New Mexican students. Wishing you and your loved ones a joyful and healthy holiday!

David Barden
New Mexico Lottery CEO

Promotions

Now, it's even easier to find New Mexico Lottery promotions!

If you or your players would like to find out more about New Mexico Lottery Promotions, you can find them easily with the NEW button on the Lottery's homepage.

1. Visit nm lottery.com
2. Tap "Enter Promotions Here"
3. See all the available Promotions
4. Click on any Promotion for info and entry

Healthy Play

TRUTH or MYTH:
The newest Scratcher is "luckier."

✓ That's a MYTH!

Scratchers are preprinted with prizes that are distributed randomly throughout the game, so the odds are predetermined.

The New Mexico Lottery wants to remind everyone to play healthy. If you or someone you know would like more information about problem gambling, call 1-800-572-1142.

Important Lottery Update

Conversion

The Lottery has been working with our new service provider, Scientific Games, on the plan to bring new equipment and resources to your store. A lot of change is coming, but we hope you will see the benefits that this conversion will bring for your operations.

Terms to know

“Conversion” means the process of the New Mexico Lottery switching operations from the current Intralot gaming system to the new Scientific Games gaming system. The conversion includes equipment, communications, reporting features, and other technology.

“Go-Live” means the point in time when the new Scientific Games terminals and other technology go into effect. In other words, this is when retailers will start using the new terminals to sell Lottery tickets.

“WAVE” is the name of the new terminal for your counter. This terminal will replace your current terminal, called the Photon.

Lottery Games

The draw games you carry today will be available on the new terminals. Powerball, Mega Millions, Lotto America, Roadrunner Cash, Pick 3 Plus, and Pick 4 Plus will all be available, as will the Lotto Combo purchase option.

Jackpot USA will also be available; however, the other Fast Play! games will be paused at Go-Live.

Scientific Games Representatives

You may see some new faces servicing the Lottery operations in your store.

As part of the conversion process, Scientific Games will identify two key roles: the Lottery Sales Representative (LSR) and the Field Service Technician (FST). The LSR will be the person visiting your store regularly to discuss sales, inventory, promotions, and ways to grow your Lottery business. The FST will visit your store for preventive maintenance and to address service calls.

As we gear up for the conversion process, Scientific Games representatives will visit your store to deliver new equipment. There may also be preliminary visits for research, such as testing communications methods or reviewing equipment locations.

Scientific Games representatives should present identification and always ask permission if there is a need to go behind the counter. Feel free to contact the Lottery if you ever want to verify the identity of someone representing Scientific Games, Intralot, or the Lottery who visits your store.

If you have any questions, please reach out to the Lottery’s Customer Service at 505-342-7600.

Thank you for your time and continued partnership with the New Mexico Lottery!
